Project Context

1. Executive Summary

SchoolConnect is a web platform designed to improve communication and collaboration among students. It provides a centralized environment where students can interact, organize events, join clubs, exchange messages, and share information. The platform aims to simplify student life by replacing scattered communication across multiple social media applications with one secure and user-friendly system.

2. Project Context

Enaa school organize many activities throughout the academic year, but students often miss important announcements because information is spread across different platforms. EnaaConnect brings communication, events, clubs, and messaging together into one centralized platform.

Objectives

- Improve communication.
- Simplify event management.
- Promote student clubs.
- Support academic collaboration.
- Increase student engagement.

Functional Requirements

8. Functional Requirements

This chapter describes the main features of SchoolConnect and explains how each feature contributes to improving communication, collaboration, and student engagement.

8.1 User Registration and Authentication

Users must create an account before accessing the platform. During registration, they provide basic information such as their name, email address, and password. After successful registration, users can log in securely using their credentials.

Main Functions

- Create a new account
- Secure login
- Logout
- Reset forgotten password
- Email verification

8.2 Profile Management

Each user has a personal profile that contains information about their academic background and interests. Profiles help students discover classmates with similar interests and make collaboration easier.

Profile Information

- Full name
- Email
- Field of study
- Academic year
- Profile picture
- Biography
- Interests

Available Actions

- Edit profile information
- Upload or change profile picture
- Update personal interests

8.3 Student Feed

The Student Feed serves as the main communication area where users can publish updates, ask questions, and share useful resources with the community.

Available Actions

- Create a post
- Edit a post
- Delete a post
- Like posts
- Comment on posts

Supported Content

- Text
- Images
- Questions
- Announcements

Expected Benefits

- Encourages communication
- Promotes knowledge sharing
- Keeps students informed about campus activities

8.4 Event Management

SchoolConnect allows students and club leaders to create and manage events in an organized way.

Each event contains:

- Title
- Description
- Date
- Time
- Location
- Category
- Maximum number of participants

Available Actions

- Create an event

- Join an event
- Leave an event
- Comment on an event
- Share an event

Event Categories

- Education
- Sports
- Workshops
- Culture
- Entertainment
- Trips

Expected Benefits

- Better organization of activities
- Increased student participation
- Simplified event management

8.5 Clubs and Communities

Student clubs can create dedicated spaces where members interact and organize activities.

Available Actions

- Create a club
- Join a club
- Leave a club
- Publish club announcements
- Manage club members

8.6 Messaging System

The platform includes a built-in messaging system that allows students to communicate privately or in groups.

Available Actions

- Send messages
- Receive messages
- Create group conversations
- Share files and documents

8.7 Trip Planning

Students can organize educational or recreational trips through the platform.

Each trip includes:

- Destination
- Date
- Budget
- Number of available seats
- Description

Available Actions

- Create a trip
- Join a trip
- Leave a trip
- Chat with participants

8.8 Notification System

The notification system keeps users informed about important activities happening on the platform.

Users receive notifications when:

- Someone likes their post
- Someone comments on their post
- They receive a message
- Someone joins their club
- A event receives new participants

8.9 Search Functionality

Users can quickly search for content across the platform.

Search Categories

- Students
- Events
- Clubs

8.10 Administration Panel

The administration panel allows administrators to monitor and manage the platform.

Administrative Functions

- Manage user accounts
- Moderate reported content
- Approve or reject events
- Manage clubs
- Remove inappropriate content

Database Design

16. Database Design

The SchoolConnect platform uses a **MongoDB** database to store and manage application data. MongoDB was selected because of its flexibility, scalability, and ability to efficiently handle structured and semi-structured data. Each collection represents a specific entity within the system, such as users, events, posts, clubs, or messages.

The database is designed to ensure data consistency while supporting the main functionalities of the platform.

Collection	Fields
Users	User ID, Full Name, Email, Password, Profile Picture, Biography, Field of Study, Academic Year, Interests, Role, Account Creation Date
Posts	Post ID, Author ID, Content, Image (Optional), Number of Likes, Comments, Creation Date
Comments	Comment ID, Post ID, User ID, Comment Content, Creation Date
Events	Event ID, Title, Description, Date, Time, Location, Category, Maximum Participants, Organizer ID
Clubs	Club ID, Club Name, Description, Club Image, Leader ID, Members, Creation Date
Messages	Message ID, Sender ID, Receiver ID, Message Content, Attachment (Optional), Sent Date
Notifications	Notification ID, User ID, Notification Type, Message, Read Status, Creation Date

user stories

ID	User Story
US-01	As a student , I want to create an account so that I can access the platform
US-02	As a student , I want to log in securely so that I can access my personal dashboard
US-03	As a student , I want to reset my password so that I can regain access if I forget it
US-04	As a student , I want to edit my profile so that other students can know more about me.
US-05	As a student , I want to upload a profile picture so that my profile is personalized
US-06	As a student , I want to publish posts so that I can share information and updates with other students
US-07	As a student , I want to like and comment on posts so that I can interact with the community
US-08	As a student , I want to delete or edit my own posts so that I can keep my content up to date
US-09	As a student , I want to search for students, clubs, and events so that I can quickly find what I need
US-10	As a student , I want to send private messages so that I can communicate directly with other students
US-11	As a student , I want to create an event so that I can invite others to participate
US-12	As a student , I want to join or leave an event so that I can manage my participation
US-13	As a student , I want to create or join a club so that I can connect with people who share my interests
US-14	As a student , I want to organize trips so that I can plan activities with other students.
US-15	As a student , I want to receive notifications so that I never miss important updates.
US-16	As a club leader , I want to manage club members so that I can organize the club efficiently.

US-17	As a club leader , I want to publish announcements so that all club members stay informed.
US-18	As an administrator , I want to manage user accounts so that the platform remains organized and secure.
US-19	As an administrator , I want to approve or reject events so that only appropriate events are published.
